Event Date: 8/31/2016

Last year, University Communications and Public Affairs launched a series of events for faculty, staff and students to learn about using social media effectively. After the success of our first series, we are pleased to offer this program again for 2016.

UC San Diego staff members are invited to a free presentation that will address how social media can be used to build community, raise awareness for events and engage followers in campus research and discoveries. Whether you are just getting started or looking to refine your skills, this event will offer best practices and tips to take your social media presence to the next level.

Light refreshments will be provided. Following the presentations and Q&A session, guests are invited to a no-host happy hour to network with colleagues and continue the social media discussion.
